

This creative project was shared by the National Button Society.

FRAMED PINK BUTTON FISH

My Pink Button Fish started with the beautiful fabric that I used for the background. After a couple of weeks of looking at it, I got the inspiration to do a pink fish on it. I thought the buttons would make the perfect representation of fish scales, so I sewed them on in a layered effect.

I came across the pretty vintage handkerchief for the fins, which I stuffed and sewed on with a blanket stitch to create a 3-D effect. She looks quite feminine, I think! **Sylvia Liszka Durell**
